

Características :

- Motor asíncrono trifásico, rotor de jaula, construcción cerrada.
- Ventilación externa incorporada
- Registro por ambos laterales
- Protección IP-55
- Incluye patas de anclaje B-3
- Bajo pedido motores de dos velocidades y 400°C/2h.

Accesorios :

- Posibilidad de suministro de transmisiones, correas y poleas.

Motores Eléctricos Asíncronos Normalizados

| MODELO | | 1500 rpm 4 polos | 3000 rpm 2 polos | Monofásico 1500 rpm 4 polos |
